## Objective

5S for Management is a class designed for front line managers, discussing how to use 5S as a tool to manage their areas, the shop floor's perceptions, and how to foster and maintain improvement momentum. White board discussion is combined with training presentations to get an overall picture of 5S and how it is

implemented. The course wraps up the day with a brainstorming session, where the participants create an Action Item plan to create and implement a measurable 5S Program for their company.

## Participants

The class is designed for up to 12 people.

## Duration

The workshop is (1) 8 hour day.

## Pre-requisites

Participants should have completed a basic training course in lean manufacturing principles such as Lean 101 or equivalent.

## Fee

Information on fees can be obtained by calling 918-280-9051, or visiting [www.isiworld.net](http://www.isiworld.net) for contact information.

## Course Content

Participants will understand the benefits of 5S, and how to manage a 5S Program.

## Deliverable

The managers will create an Action Item plan to create a comprehensive 5S Program for their company, with a timeline for completion.
